

170 MarkView for PeopleSoft

Best practices for financial business processes.

Business process and document management software.

A PeopleSoft certified software integration.

Company Overview

170 Systems provides business process management and document management software that transforms core financial ERP functions into consistent, automated best practices business processes. 170 Systems offers a complete set of high-end, imaging-related capabilities, including high-volume production scanning, fax receiving and transmission, storage, distribution, and high-performance image viewing. 170 Systems products are ideal for global enterprise-wide deployments and have been proven in many of the world's largest organizations over the past 13 years.

Integration Overview and Benefits

The integration of 170 MarkView with PeopleSoft Financials enables businesses to streamline financial processes that require the handling of externally-generated paper or faxed documents. 170 MarkView for PeopleSoft enables businesses to efficiently capture and manage these documents as online images and make them available from PeopleSoft Financials.

Customers

- Retrieve images ready for processing in PeopleSoft.
- Associate images with PeopleSoft entities during the data entry process.
- View the attached images from within PeopleSoft.

Integration Methodology and Technology

The two-way integration between PeopleSoft Enterprise and 170 MarkView for PeopleSoft is completed entirely by using PeopleSoft standard integration approaches. 170 MarkView for PeopleSoft communicates with the PeopleSoft application server through a combination of PeopleSoft Component Interfaces and Java PeopleCode.

Attentive application of these technologies ensures that the security of your PeopleSoft data is intact and your exposure to upgrade risks is minimized. Additionally, 170 MarkView for PeopleSoft does not store any of your confidential data outside of PeopleSoft.

Availability

170 MarkView for PeopleSoft is available from 170 Systems, Inc. For more information, please call 1-800-788-6170 or e-mail info@170systems.com.

Support

170 Systems fully supports 170 MarkView for PeopleSoft. Visit support.170systems.com or call 1-781-743-2300 for assistance.

Operating System: Solaris 9

Hardware Platform: Sun

PeopleSoft Certified Software Integrations

When PeopleSoft conducts certification testing, we verify only that the software integration functions according to the partner's test plan, and that it makes appropriate use of PeopleSoft components and integration technologies in the environment specified in the published Certification Datasheet. Certification applies only to the components providing integration between the partner's software and PeopleSoft software; it does not apply to or extend to the partner's software product(s). Certification is performed in a lab environment using uncustomized versions of PeopleSoft and the partner's software. Certification testing is product version specific, hardware specific, database specific, and operating system specific, and is conducted in English, unless explicitly noted otherwise. Similar results may not be able to be duplicated in a production environment, including where the PeopleSoft or partner software is modified or customized upon implementation. Customers are solely responsible for the selection of all third-party software, including any integration software, used in conjunction with PeopleSoft software and for the results of such use. For the functional and environmental details on the certified integration, refer to the Certification Environment section of the Certification Datasheet. A list of all PeopleSoft partner Certification Datasheets can be found in the Partner section of the PeopleSoft web site at www.peoplesoft.com.
