

Unicenter Management for PeopleSoft

PeopleSoft 8 certified software integration.

Manage PeopleSoft jobs, processes, and events with single management tool.

Centralized monitoring of PeopleSoft Process Scheduler.

Computer Associate's Unicenter Management for PeopleSoft enables PeopleSoft customers to leverage Unicenter's ability to manage PeopleSoft jobs, processes, and events from a single console.

Computer Associates International, Inc.

Computer Associates International, Inc. (NYSE: CA) delivers The Software That Manages eBusiness. CA's world-class solutions address all aspects of eBusiness process management, information management, and infrastructure management in six focus areas: enterprise management, security, storage, eBusiness transformation and integration, portal and knowledge management, and predictive analysis and visualization. Founded in 1976, CA serves organizations in more than 100 countries, including 99 percent of the Fortune 500 companies.

Integration Overview

Unicenter Management for PeopleSoft provides an external facility (outside of PeopleSoft) to submit and monitor PeopleSoft jobs and processes—for example, SQR, COBOL, and Application Engine. The product integrates with the Unicenter Network and Systems Management workload option, as well as other Unicenter components. PeopleSoft jobs and processes are automatically monitored, eliminating the need for time-

consuming manual monitoring. Users can view all PeopleSoft scheduled work, through Unicenter or the PeopleTools Process Monitor GUI.

- Integrated scheduling of PeopleSoft jobs and process with non-PeopleSoft processes.
- Centralized scheduling to multiple PeopleSoft instances and versions.
- Compatible with PeopleTools Process Monitor GUI.

Using this tool, users can schedule all PeopleSoft reports and batch processes—SQR, Crystal, COBOL, Application Engine, or custom batch processes.

Unicenter Management for PeopleSoft integrates with the Process Scheduler component of PeopleTools. An ODBC connection is used to access the PeopleSoft application database directly.

Availability

Unicenter Management for PeopleSoft is available from Computer Associates International, Inc. at 800 243 9462.

Support

Computer Associates fully supports Unicenter Management for PeopleSoft. Call 631 342 5760 8:00a.m. to 10:00p.m. EST on business days, or esupport@ca.com.

Software: PeopleSoft 8.12, PeopleTools 8.13, PeopleTools 8.14

Database platform: MS-SQL 7.0, Oracle 8.1.6

Operating system: Windows NT 4

PeopleSoft Certified Software Integrations

When PeopleSoft conducts certification testing, we verify only that the software integration functions according to the partner's test plan, and that it makes appropriate use of PeopleSoft components and integration technologies in the environment specified in the published Certification Datasheet. Certification applies only to the components providing integration between the partner's software and PeopleSoft software; it does not apply to or extend to the partner's software product(s). Certification is

performed in a lab environment using uncustomized versions of PeopleSoft and the partner's software. Certification testing is product version specific, hardware specific, database specific, and operating system specific, and is conducted in English, unless explicitly noted otherwise. Similar results may not be able to be duplicated in a production environment, including where the PeopleSoft or partner software is modified or customized upon implementation. Customers are solely responsible for the selection of all third-party software, including any integration software, used in conjunction with PeopleSoft software and for the results of such use. For the functional and environmental details on a certified integration, refer to the partner's Certification Datasheet, found in the Alliances section of the PeopleSoft Web site at www.peoplesoft.com.
