

Covalent FastStart Web Server for PeopleSoft

PeopleSoft 8 certified software integration.

Covalent's Enterprise Enhanced Apache Web server.

Technical support from the Apache experts.

Covalent's FastStart Server for PeopleSoft brings the power and reliability of a commercially supported Apache Web Server to PeopleSoft's industry leading applications.

Apache is the Web server software of choice for more than 18 million Web sites worldwide. By enhancing the manageability, security and service quality of Apache, Covalent has delivered increased operational efficiency and lower cost of ownership. Since the creation of Apache, San Francisco-based Covalent has emerged as an industry leading provider of enterprise solutions for the Apache Web server and supports an impressive customer base including many Fortune 500 and Global 2500 customers.

Integration Overview

Covalent's PeopleSoft certified software integration allows customers to take advantage of the reliability and security of Apache:

- Easy installation of Covalent's pre-packaged Apache solutions, optimized for your operating system.
- High performance SSL connections through Covalent's industry leading SSL module based on the RSA BSAFE SSL libraries.
- Supports a variety of installation architectures to fit your environment.

FastStart Web Server for PeopleSoft

Covalent's integration of FastStart, powered by Apache, with PeopleTools is based on the PeopleSoft Internet Architecture (PIA). Covalent supplies a version of Apache configured with the Apache mod_jserve Web server plug-in. Mod_jserve in turn communicates with the JServe servlet engine supplied with PeopleTools. No change in the PeopleTools configuration is required for this integration. With this support for PIA, you can now use FastStart with any of your PeopleSoft applications. Support is provided for both integrated (PeopleSoft components and Covalent FastStart on a single server) and distributed (Covalent FastStart on one system, connected to the PeopleSoft components on a second system) environments.

Availability

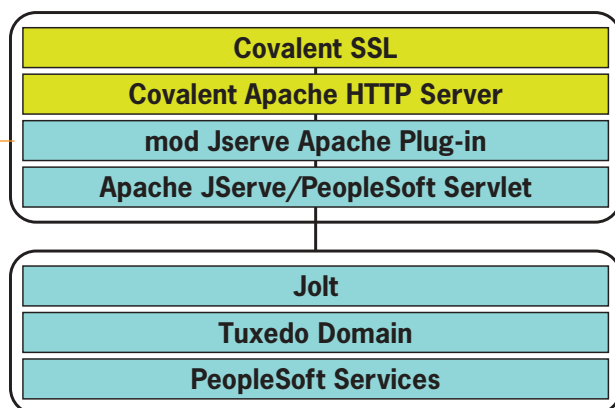

FastStart 2.1 for PeopleSoft is available from Covalent Technologies. Contact your Covalent sales representative or call 800 444 1935, email sales@covalent.net, or visit www.covalent.net

Support

FastStart 2.1 is supported by Covalent Technologies, Inc. with a variety of on-line and phone-based technical support plans. Covalent support information can be found at www.covalent.net/support, or via email at support@covalent.net.

Covalent/PeopleSoft Integration

FastStart Server with PeopleTools

Certification Environment

The integration was tested in the following environment:

Hardware: Sun SPARC III

Software: PeopleTools 8.1.7, PeopleSoft 8SP3 HRMS, Covalent FastStart 2.1

Operating System: Solaris 8

Database: Oracle 8.17

PeopleSoft Certified Software Integrations

When PeopleSoft conducts certification testing, we verify only that the software integration functions according to the partner's test plan, and that it makes appropriate use of PeopleSoft components and integration technologies in the environment specified in the published Certification Datasheet. Certification applies only to the components providing integration between the partner's software and PeopleSoft software; it does not apply to or extend to the

partner's software product(s). Certification is performed in a lab environment using uncustomized versions of PeopleSoft and the partner's software. Certification testing is product version specific, hardware specific, database specific, and operating system specific, and is conducted in English, unless explicitly noted otherwise. Similar results may not be able to be duplicated in a production environment, including where the PeopleSoft or partner software is modified or customized upon implementation. Customers are solely responsible for the selection of all third-party software, including any integration software, used in conjunction with PeopleSoft software and for the results of such use. For the functional and environmental details on a certified integration, refer to the partner's Certification Datasheet, found in the Alliances section of the PeopleSoft Web site at www.peoplesoft.com.
